Mr. and Mrs. V. Wiess left last evening for Berclair, Goliad county, where they will spend some time at their ranch.

THE THOMPSON SITE SELECTED.

A dispatch from Washington says that the Thompson property on the corner of Pearl and Bonham streets has been approved by the secretary of the treasury as the site for the new government building, for which \$7,000 is to be paid. Dr. Thompson's bid was \$10,000, but we are informed that he reduced the price to \$9,000 and that interested parties made up the difference.

A NICE ORDER.

The C. W. W. George Manufacturing Co. of this city has just finished the mill work for a residence in Houston, that amounts to three thousand dollars, which is an order that is not booked every day. It is a prominent fact that builders can get better work at the Beaumont factories than at any other point in the south. A fact that they should always bear in mind.

FASHIONABLE DRESSMAKING.

Having lately arrived from New Orleans, would solicit a share of the patronage of the ladies of Beaumont. Latest styles in up-to-date dressmaking.

MAKING A BIG SHAFT.

The Beaumont Iron Works are working night and day on an order for the Pickering Lumber company. The work is eight inches in diameter and twenty-six feet long. The material for this work is kept in stock by the Beaumont Iron Works, a fact which speaks well for their ability to turn out any kind of work on short notice. Mr. Groves of the Iron Works said that they were having some trouble in getting iron on account of the great demand for that product all over the country. This company is buying about three cars of old iron daily, out of which they take the castings and ship the wrought iron to Cincinnati and New Orleans. They are making a shipment of three cars of the latter class of iron today.

Furnishing
A Dining
Room.

IT'S an easy matter to settle upon a dining room outfit here. Our collection is almost without limit. One set, in particular, we would like to single out for your consideration. It's in the medium class in price, but it is elevated in its make-up. It consists of an oak sideboard with French oval plate mirror; wood work is hand carved; extension table with rope legs and carved feet; six chairs with high banister backs. This outfit we shall run for a few days at \$37.50. Ordinarily it would bring \$50.

Call and examine these outfits, and you will order one sent home.

ENLARGED TIE AND PILING BUSINESS.

Yesterday Claude L. Nalors, manager for Wm. Cameron & Co. in this city, closed a deal whereby that company purchased the tie and piling business of L. Solinsky, together with his camps and commissaries. This virtually gives Wm. Cameron & Co. control of all the tie and piling business on the Sabine and East Texas railway, and now Manager Nalors has four camps under his control. In order to manage them to the best advantage he will concentrate the entire office forces in this city, which will be a general office for the business tie and piling business of Wm. Cameron & Co. in Southern Texas. This move will be much better for Mr. Nalors, who has been on the road most of the time in order to look after the offices at the different points, and it is a "baited advantage" to Beaumont.
